**Subject:** Thank you for your visit

Dear Maria,

I am writing to thank you for your visit at the Jerusalem Academy and for meeting us and our students, who benefit so much from the generous support of the ARPE Foundation.

Meeting you has been very meaningful for all of us - the students Omer, Eli and Moshe, the three deans Bella, Lihay and Ari, and myself. We deeply appreciate the belief of the ARPE Foundation in the artistic and human values of supporting these highly talented young musicians in such a strong, consistent way. As teachers, who witness these students' seriousness, dedication, progress and success, we know how important your support is and what part it has in allowing them to develop and bloom, and what confidence it helps to build in establishing their own creative voice.

I would like to thank you for being so kind and so gracious in carrying such an immediate and personal dialogue with Omer, Eli and Moshe. I am sure you could sense that they do not take the generous support lightly or for granted in any way, and that their appreciation and gratitude is accompanied by a mature and deep sense of responsibility. As teachers, it has been a great privilege for us to have the opportunity to guide these highly gifted and thoughtful persons.

Omer will perform as pianist in a concert of new music on December 18th, Eli will have his oboe quartet performed in our collaborative chamber music project with the Liszt Academy in Budapest, Moshe's activity as jazz pianist is flourishing.

There are many activities that are going on, but I will just mention the one that is taking place tonight (I wish you were here to attend) - The JAMD Mendi Rodan Symphony Orchestra will play at the YMCA Hall in Jerusalem its first concert for the season. In the program - works by Prokofiev., Nilsen, Mendelssohn and Beethoven.

Again I would like to express our gratitude to the ARPE Foundation and our Academy's door is always open to you and all your distinguished colleagues and friends at the ARPE Foundation.

With Warmest wishes and best regards,

Yinam

P.s. I send you a picture in a separate email/
