

Letter of thanks:

To ARPE Foundation

Thank you very much for your support in me in the past year.

Your donation helped me a lot, especially it helped me to focus on my studies.

In the past year I have been developing myself as a conductor, and now I have a youth wind orchestra of my own in Tsur Hadassa Conservatory.

This was only possible thanks to my focus on studying The conducting arts under Professor Eitan Globerson, in witch you helped a lot.

Thanks to your financial support, now in the CoronaVirus days, I can afford to myself to continue working with my orchestra, even tho the Conservatory can't afford my conducting salary. It's very important for the children that the orchestra will continue, and they and their parents are very thankful.

I have been making progress in my Tuba Player Career as well. I was Supposed to Perform a concert with the Rishon LeZion Symphony Orchestra, But the performance was cancelled duo to the CoronaVirus.

All of the above and many more things were only possible thanks to your donation.

Thank you very much!

Dear donators,

I want to thank you so much for this huge scholarship.

I have no idea how could I study and live without your scholarship.

Everyday I wake up I think and appreciate the fact that I can just study and I don't have to pay for it, It makes me be much more calm, knowing that I have a double degree but I don't need to worry to cover it. Rent and expenses are my only worries while my friends have to go to work really hard and I can just make music, and concerts- just to do what I love!

Now the economical situation in my house is very difficult, my dad is not working and I need to help in the house, and now because of the coronavirus, my concerts that I supposed to have were canceled, and I lost a lot of money, I can't even thing how could I manage it without your scholarship!

As a gesture for you, if you want, I can perform for the foundation, I have a ladino music ensemble and apart of that I sing opera and many other styles like Persian music!

You can find recording in the other document and also on YouTube under my name!

Thank you so much!!
