Fundación Delegación Fondation Arpe
Att. D^a Ana Sainz de Vicuña Bemberg
José Bardasano Baos, 9
Edificio Gorbea 3 - 28016 Madrid

Dear Ana,

For a number of years, the "Arpe Foundation" has supported us and accompanied us on the journey which the "Fundación También" has been making in favour of the social inclusion of people with disabilities, particularly children and young people.

We have relaunched our beloved "Inclusive Sailing and Multi activity Camp", thanks to your permanent commitment, solidarity and support. This brings so much joy, smiles and happiness to the little ones and it has been a complete success. As you know, your help is specifically destined for children with severe disabilities and limited financial resources. A unique alternative that allows all of them to enjoy the same opportunities as others.

The commitment of "Arpe Foundation" has allowed us to launch this summer, from 16 to 24 of July, the eleventh edition of the Inclusive Camp. An unique opportunity for our children with severe disabilities to share their leisure with children without disabilities. During these days, and in this new edition, skills and values were developed in a framework where inclusion is revealed as a fundamental tool, whilst also providing their families respite. An activity in which extraordinary bonds of friendship are created.

As you know from previous years, we normally utilized your aid, in addition to the inclusive summer camp in Ourense, to carry out leisure activities with children with disabilities and their families at Christmas. Christmas activities, such as a day at the bowling alley or a Christmas party, have been done as we have on other occasions. With these activities, the children are able to leave their usual routines behind or receive therapies and have access to activities which they could not always afford. All of this is a great benefit to their imagination, creativity and wonder.

Thus, on behalf of "Fundación También", and of each one of the children and young people who enjoy this opportunity as well, I extend our deepest gratitude.

Kind regards,

Teresa Silva
President of "También Foundation"
