

Fundación Delegación Fondation Arpe

Mrs. Ana Sainz de Vicuña Bemberg

Madrid October22, 2024

We at Asociación AIREs would like to express our most sincere gratitude for the support we have received from Fondation Arpe.

This is the fourth year that we have received the support of Fondation Arpe for our projects and we are very happy to consolidate a relationship in which together we join forces to continue being part of the solution to a reality that surrounds us and that is not indifferent to us: women who are or have been victims of gender violence and are homeless. We want to thank you for the interest shown in the projects of AIREs.

We would like to thank you for the interest shown in the work we develop from AIREs, especially for your trust and your commitment to our organization, our team and our project, as well as your financial support that this year 2024 has materialized with a donation [REDACTED].

As you know, AIREs is a reference entity in working with women at extreme risk of exclusion and we have launched a pioneering project in Europe that is giving great results in the eradication of homelessness suffered by women who have survived violence but have lost everything along the way.

Por todo ello reiteramos nuestro agradecimiento y nuestro mensaje de lo importante que es para nosotras recibir apoyos como el de Fondation ARPE tras entender nuestra misión, visión y valores.

Through our projects we provide comprehensive support to women who are homeless from a clear gender perspective. We provide them with one-person housing and a team specialized in addressing trauma, which is their support to recover and rebuild their life project, and we also support them in professional training and pathways to employability.

The financial support received from you this year will allow us to continue going forward in our care and accompaniment of the women participants.

Specifically, your support contributes to the development of the training **space Estudio-Taller Retocar Madera** that includes recovery and training itineraries for the employment of the participating women.

For all these reasons, we reiterate our gratitude and our message of how important it is for us to receive support such as that of Fondation ARPE after understanding our mission, vision and values.

On behalf of AIRES Team, we send you our best regards,

Carmen Belchí García

Presidenta de AIRES
