Ana Sainz de Vicuña Bemberg

Madrid 15 January 2026

Dear Ana,

On behalf of Querer Foundation, we would like to express our sincerest gratitude for the financial contribution [REDACTED] that we have received. We are pleased to inform you that this amount will be allocated to the organization of several Art Therapy sessions throughout the current 2025–2026 school year.

We consider Art Therapy to be an effective and versatile tool within educational settings, particularly valuable in addressing the specific needs of students with functional diversity. Our strong belief in the benefits of this discipline stems from the very positive experience we had during the previous school year, which was made possible thanks to your generous donation.

For all these reasons, we would like to convey not only our own gratitude, but also that of the children and their families, who have directly benefited from this valuable support.

Querer Foundation does not receive public funding; therefore, the continuity of our projects largely depends on the support we receive through donations such as yours. This type of collaboration allows us to continue developing high-quality educational initiatives and to expand the positive impact on our students. We hope to continue walking this path together in the future and to further strengthen this valuable bond within our educational community.

Thank you once again for your trust and commitment.

Warm regards and our most sincere thanks.
